Discussion (1)

JavaScript can be a party. You just have to know how best to use it. Watch on as we add some interactivity to our page using JavaScript.

1. Javascript

1. The behavior of the content on your site
2. Often JavaScript is responsible for page animation, behaviors with forms, and much more...

2. A quick trick to remember

1. HTML: noun
2. CSS: adjective
3. JavaScript: verb
